Open Calls: Overview & Timeline

FSTP recipients: Beneficiaries must be consortia composed of legal entities (50% SMEs +Universities + RTOs) established in any of EU Member States and their Overseas Countries and Territories (OCT) or Horizon Europe Associated Country.

**ENVELOPE partners can NOT be involved in the grantees' projects neither their affiliates nor employees – including persons working under employment contract or contract or similar to employment contract and board members*

Size of submission expected: At least 9 Third Party experiments are to be selected depending on the participants per submitted experiment.

Total Budget: €2.700.000 (€300,000 per experiment with maximum of €60,000 per beneficiary).

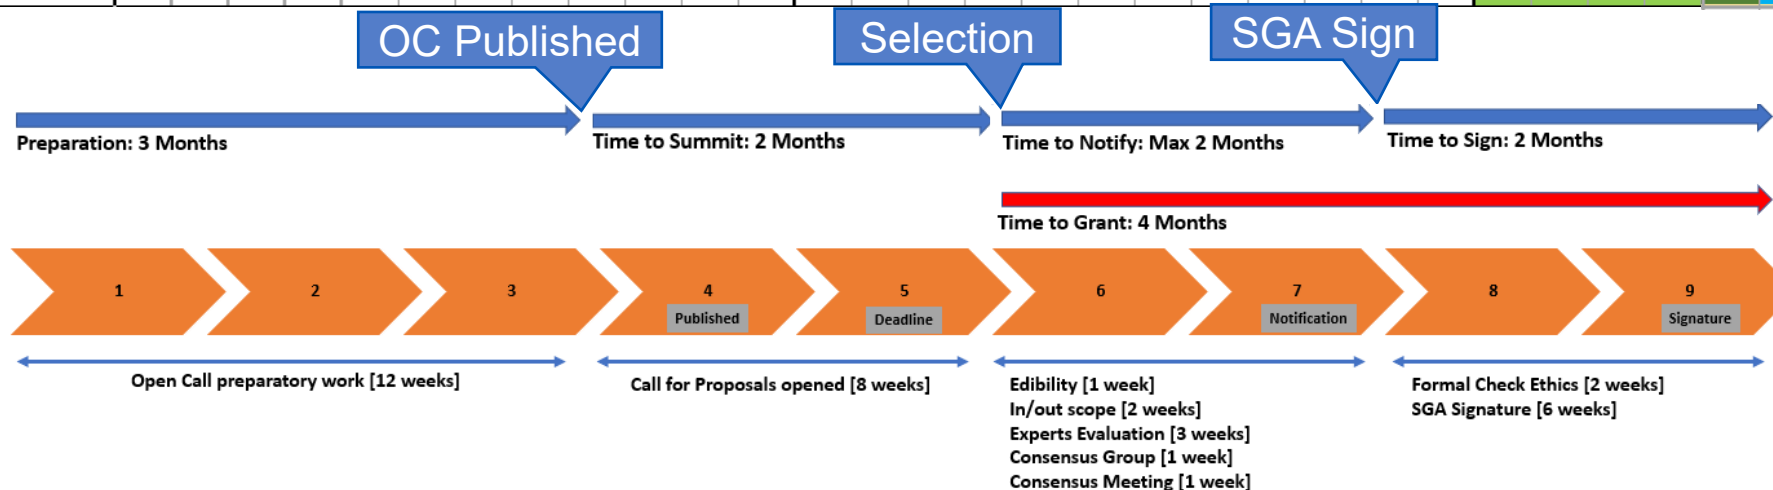

First Open Call: €1.350.000, 50% of total budget.

Type of Activities: Activities that highlight the capabilities of the ENVELOPE platform and enhance the platform's influence in domains and use cases beyond those already covered by the internal use cases.

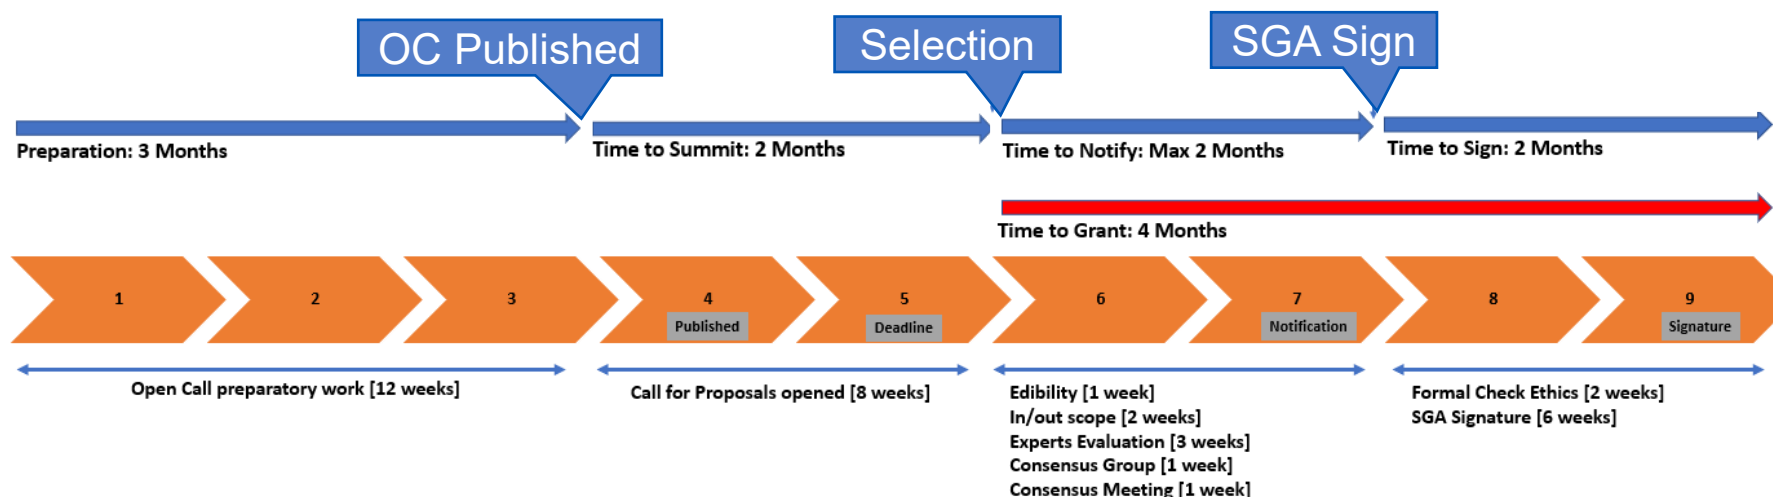

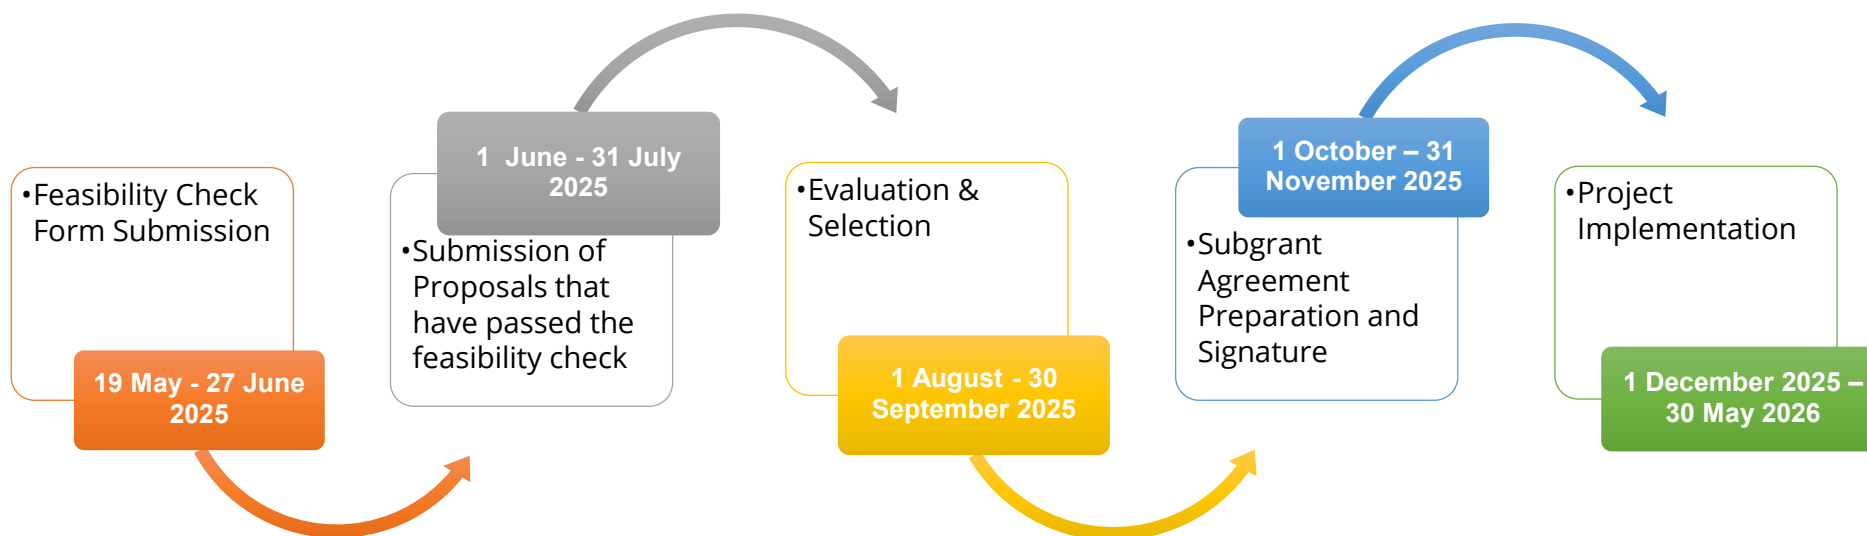

- The objective is to maximize the applicability and use of the ENVELOPE experimental facility for CAM vertical applications.

Feasibility Criteria:

Admissibility Screening

- Applicants must have a relevant project to contribute to the ENVELOPE project. The project must be innovative and have a clear impact on the environment.
- Applicants must have a clear understanding of the project's objectives and the potential marketability of the project.
- Applicants must have a clear understanding of the project's risks and the potential for failure.
- Applicants must have a clear understanding of the project's timeline and the potential for delays.
- Applicants must have a clear understanding of the project's budget and the potential for cost overruns.
- Applicants must have a clear understanding of the project's legal and regulatory requirements.
- Applicants must have a clear understanding of the project's social and environmental impact.
- Applicants must have a clear understanding of the project's economic impact.
- Applicants must have a clear understanding of the project's cultural impact.
- Applicants must have a clear understanding of the project's political impact.
- Applicants must have a clear understanding of the project's international impact.
- Applicants must have a clear understanding of the project's global impact.
- Applicants must have a clear understanding of the project's future impact.
- Applicants must have a clear understanding of the project's long-term impact.
- Applicants must have a clear understanding of the project's overall impact.

Impact and Impact

- The project must have a European dimension for the ENVELOPE project.
- The project must have a clear understanding of the project's objectives and the potential marketability of the project.
- The project must have a clear understanding of the project's risks and the potential for failure.
- The project must have a clear understanding of the project's timeline and the potential for delays.
- The project must have a clear understanding of the project's budget and the potential for cost overruns.
- The project must have a clear understanding of the project's legal and regulatory requirements.
- The project must have a clear understanding of the project's social and environmental impact.
- The project must have a clear understanding of the project's economic impact.
- The project must have a clear understanding of the project's cultural impact.
- The project must have a clear understanding of the project's political impact.
- The project must have a clear understanding of the project's international impact.
- The project must have a clear understanding of the project's global impact.
- The project must have a clear understanding of the project's future impact.
- The project must have a clear understanding of the project's long-term impact.
- The project must have a clear understanding of the project's overall impact.

IMPLEMENTATION

- The project must have a clear understanding of the project's objectives and the potential marketability of the project.
- The project must have a clear understanding of the project's risks and the potential for failure.
- The project must have a clear understanding of the project's timeline and the potential for delays.
- The project must have a clear understanding of the project's budget and the potential for cost overruns.
- The project must have a clear understanding of the project's legal and regulatory requirements.
- The project must have a clear understanding of the project's social and environmental impact.
- The project must have a clear understanding of the project's economic impact.
- The project must have a clear understanding of the project's cultural impact.
- The project must have a clear understanding of the project's political impact.
- The project must have a clear understanding of the project's international impact.
- The project must have a clear understanding of the project's global impact.
- The project must have a clear understanding of the project's future impact.
- The project must have a clear understanding of the project's long-term impact.
- The project must have a clear understanding of the project's overall impact.

❑ Are the objectives clear and relevant to the topic? Are they measurable and realistic?

- ☐ Is the proposed work ambitious and goes beyond the state of the art? (new products, services or business and organisational models)
- ☐ Is the maturity of the proposed work aligned with the topic description?

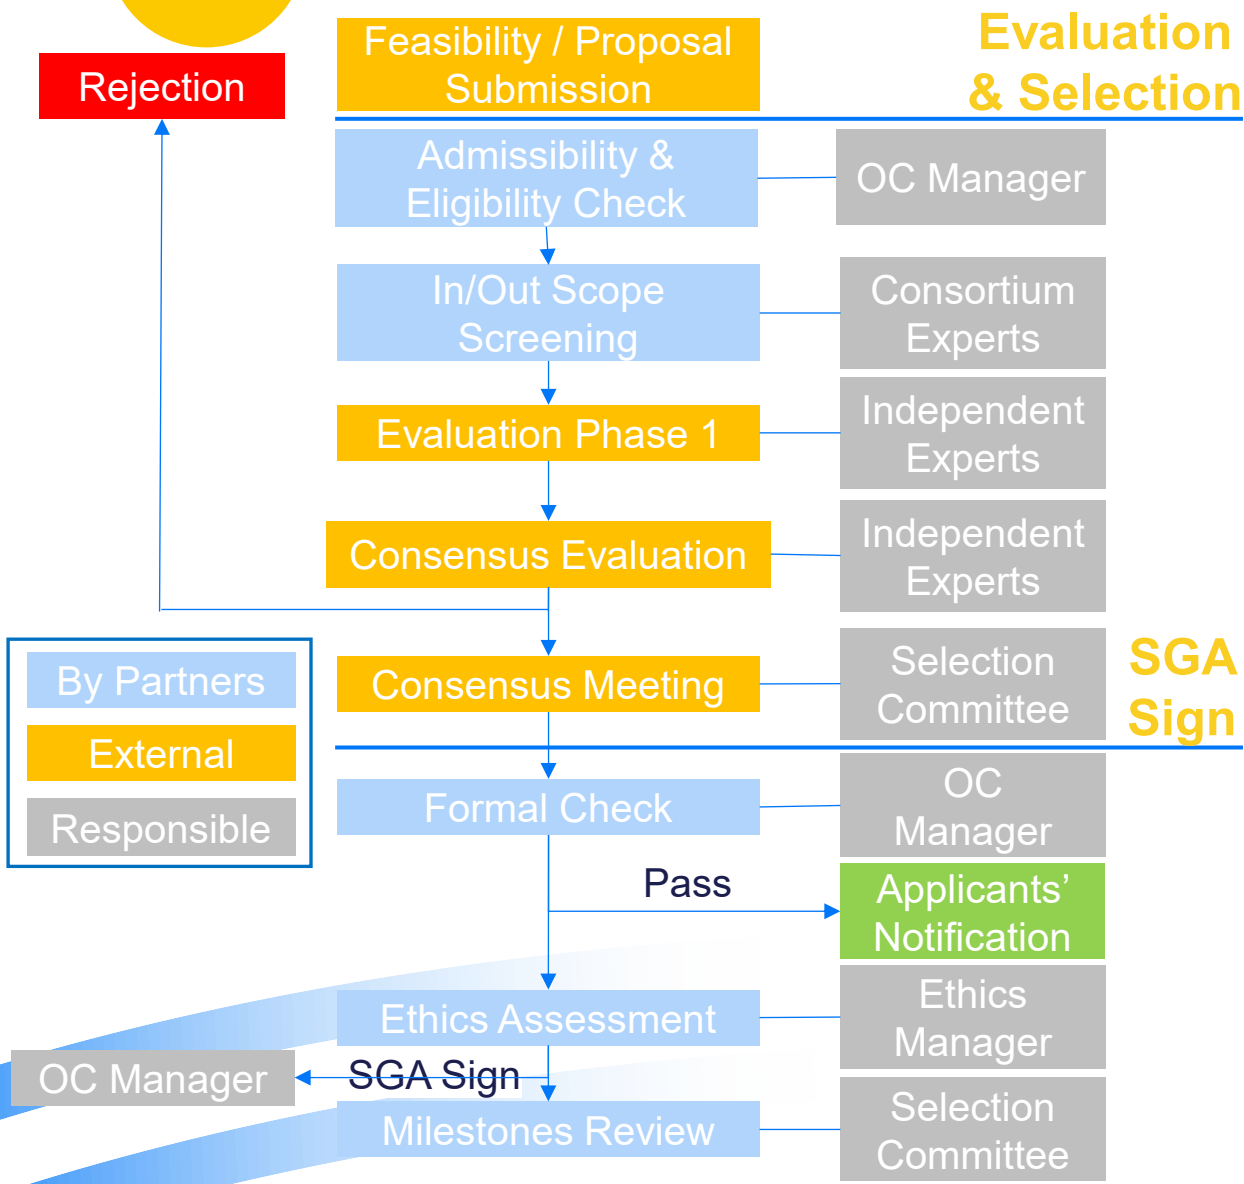

☐ The proposed work should have sufficient benefits for the ENVELOPE project.

- ❑ Applicants have to clearly indicate the added value for the ENVELOPE project. They may refer to the use-cases in the call text if appropriate or indicate any models that can help sustain or extend the ENVELOPE experimentation facility and its usage beyond the project budget and project ending.

- ❑ Coherence of the work plan, timelines, deliverables & milestones.
- ❑ Appropriate allocation of tasks and resources, justification of resources in order to get the proposed deliverables.

- ❑ Skills and experience of the project delivery team.
- Complementary skill sets of the team.

OC Launch, Evaluation & Contracting

MILESTONE REVIEWS CRITERIA

- **Deliverables' quality.** The Technical Manager will evaluate and score the deliverables outlined in the "Individual Mentoring Plan".
- **Technical performance indicators.** The Technical Manager will evaluate and score the Key Performance Indicators (KPIs) outlined in the "Individual Mentoring Plan".
- **Deadline Compliance.**

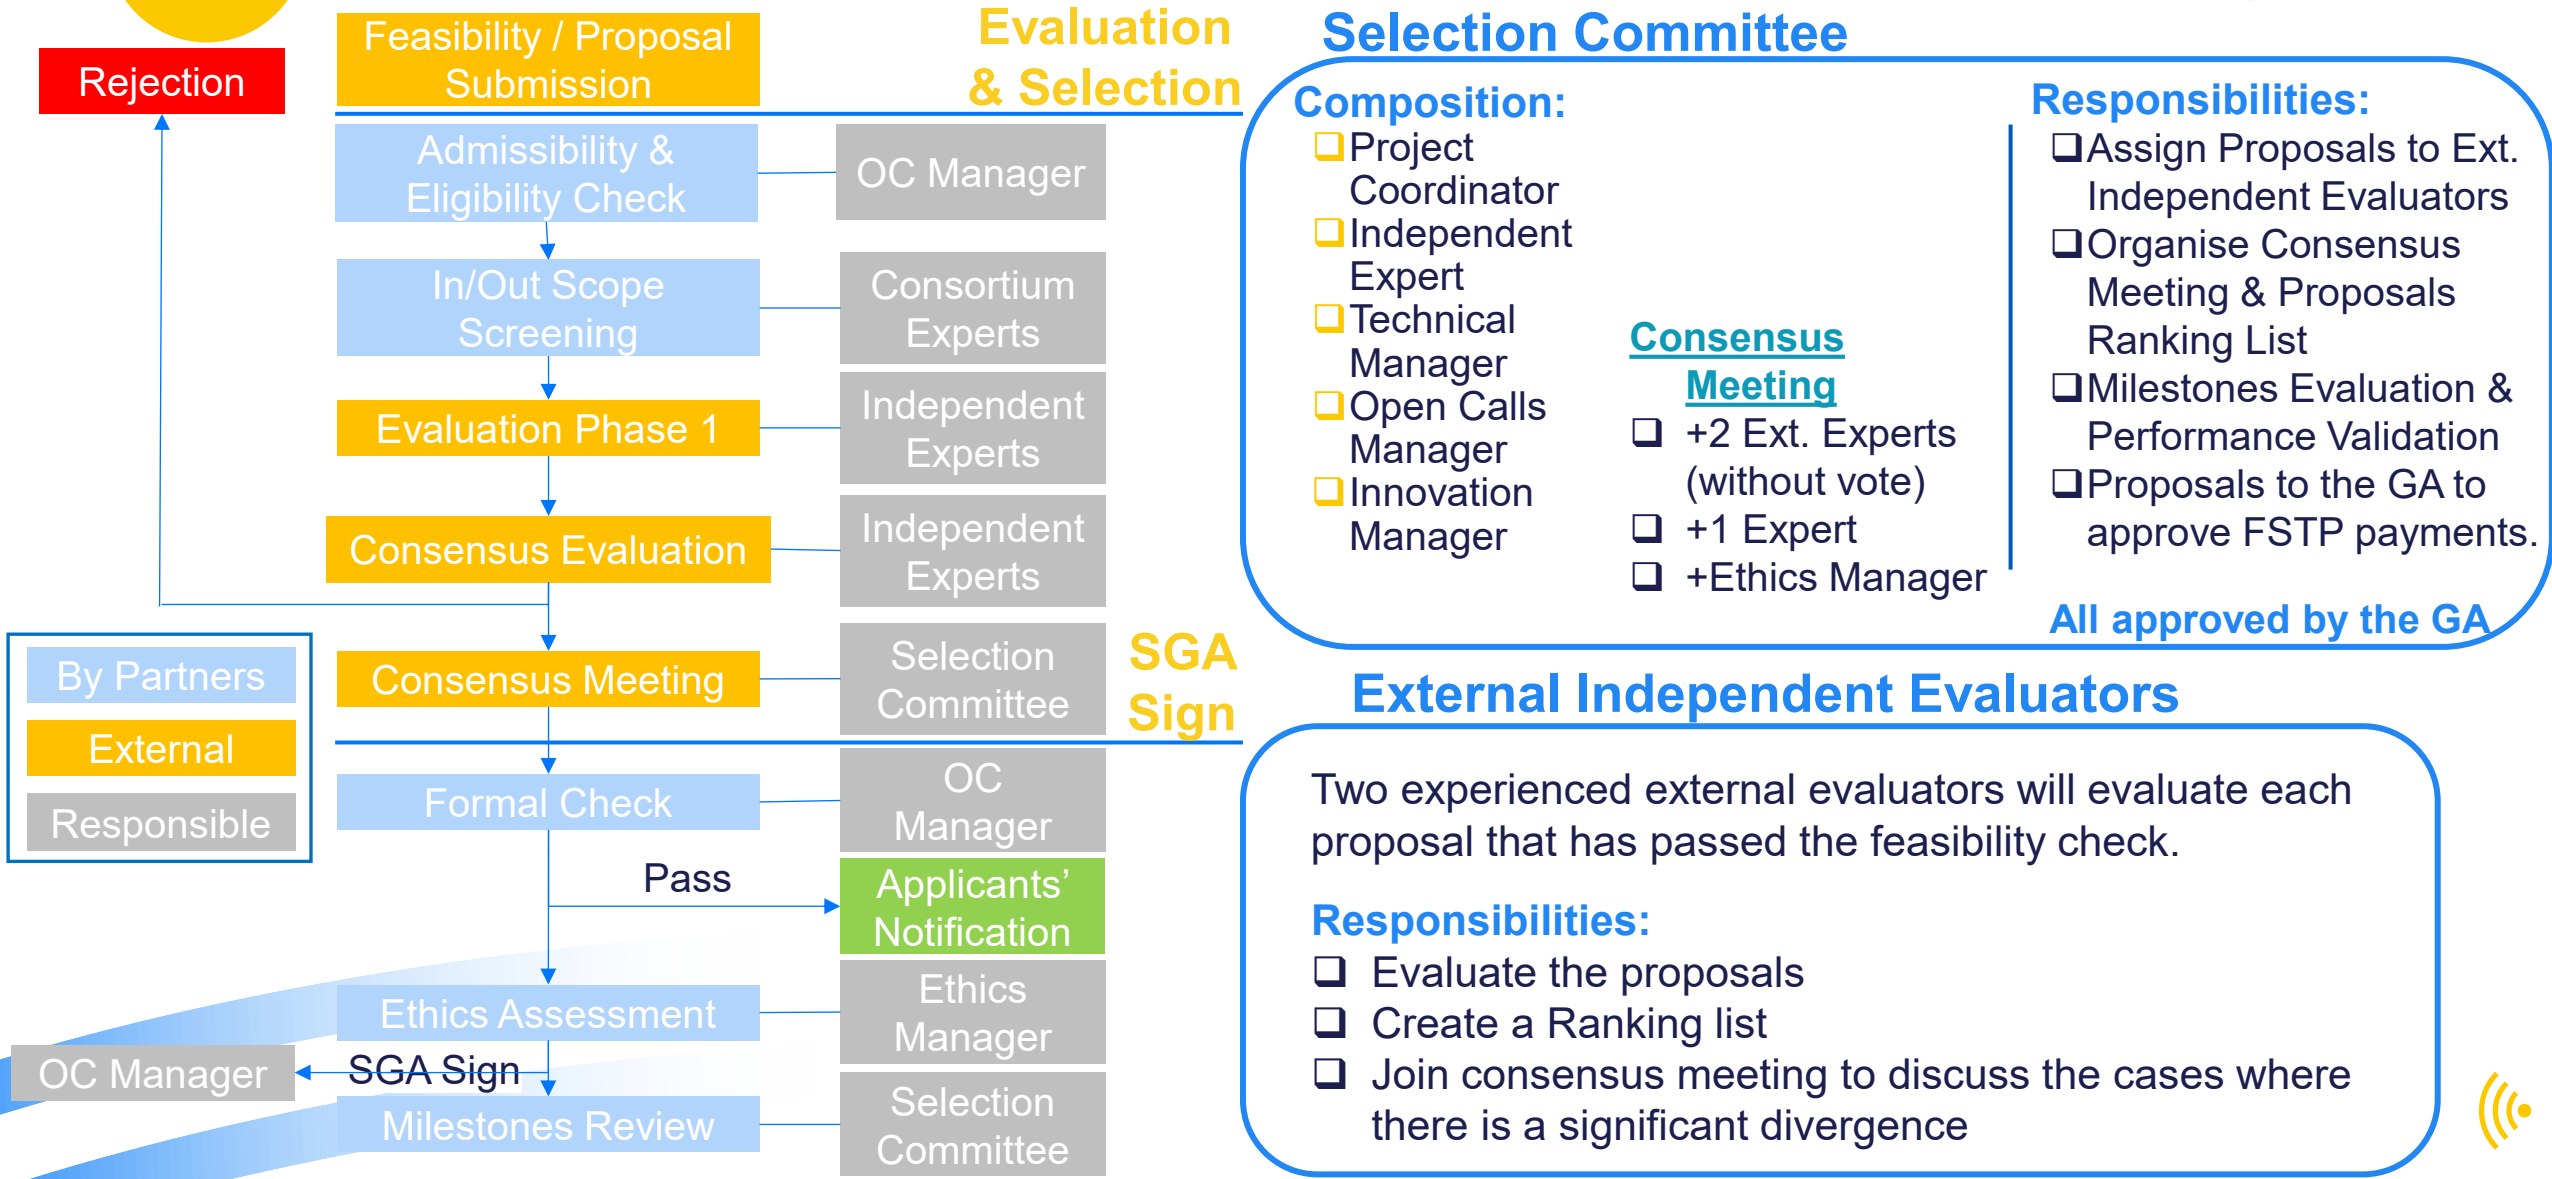

The **final score** will be determined by assigning a score from 0 to 10 for each criterion, and the weight of each criterion in the final score will be as follows:

- Deliverable quality (30%).
- Technical performance indicators (60%).
- Deadline Compliance (10%).

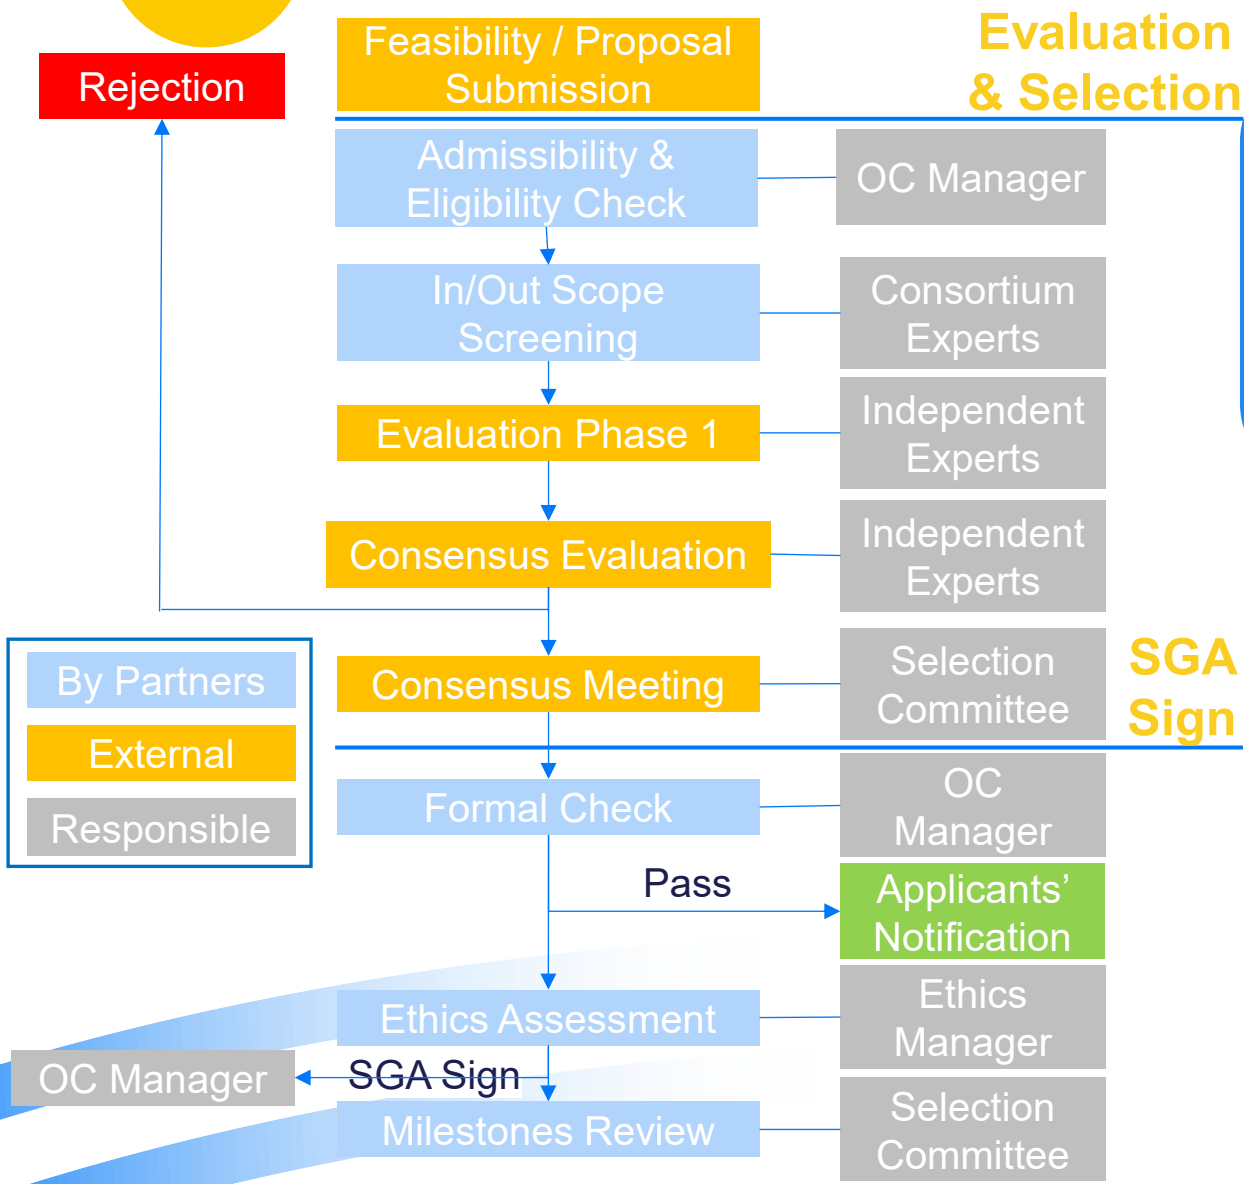

Beneficiaries who score **above 7 points** will be eligible to receive the next payment.

OC Launch, Evaluation & Contracting

OC Launch, Evaluation & Contracting

Mentoring Committee

Responsibilities:

- ❑ Projects will be executed according to the specifications included in their Individual Mentoring Plans (IMP) annexed to their SGAs.
- ❑ The ENVELOPE Mentoring Committee, will be responsible for monitoring and supporting the third-party projects, assigning technical mentors, and evaluating the deliverables produced by them according to their IMP

Open Calls: FSTP Budget

The FSTP will be paid against specific Deliverables /upon achievement of certain milestones or KPIs, (which will be included in the 'Individual Mentoring Plan' (IMP) annexed to the SGA and based on the results of the Milestone Reviews.

The final beneficiaries will receive the funding as follows:

	Stage duration	Deliverable	Fixed lump sum
Stage 1 Definition	1 month	Individual mentoring plan and definition of work	Up to €45.000
Stage 2 Implementation	4 months	Report on sub-project implementation	Up to €210.000
Stage 3 Evaluation and feedback	1 month	Project implementation report and feedback on findings	Up to €45.000
TOTAL	6 months		Up to €300.000

- The grant awarded to the chosen applicants **will not impact the ownership of any pre-existing intellectual property.**
- The **awarded applicants** must ensure that **will not wilfully infringe any IPR** belonging to any of the ENVELOPE partners or any third party.
- As Horizon Europe Model Grant Agreement shall apply, IPR to the **Results generated by the awarded beneficiary shall be owned by the beneficiary.**
- In the event of **multiple partners**, the allocation and terms of exercise of **any joint ownership of results arising between the partners will be agreed between themselves.**

ii) **extend** the provided infrastructure for experimentation as a service with additional functionalities, possibly tailored to the needs of other verticals; the extension should target the design, development, integration and validation of a new (ENVELOPE) Enabler/API.

Information on the ENVELOPE APIs and Enablers is provided in the documents available [here](#). The case study where these APIs/Enablers will be applied can either be related to the automotive sector or on another vertical domain.

Subgrant Agreement Preparation and Signature

01/12/2025-30/06/2026
Project Implementation

The Feasibility Check is mandatory for all proposers. Only proposals that have submitted their Feasibility Check applications before 27/06/2025 (deadline extended) and received positive feedback are allowed to submit their final applications.
